Please be as specific as possible within the space provided

Name of mass media invention promoter advertised in: (i.e. TV, Radio, Newspaper, Magazine, Other)

Invention Submission Corporation, tradeshows, tv, magazines etc.

Invention promotion services offered to be performed:

Expose to special private companys, News releases, catalogs ads

Explanation of complaint between customer and invention promoter:

I was made to believe that they were going to help me promote and sell my invention. They said that if I made payments as a way of saving money with them that by the time the patent came I would have money for promotion and marketing and money for trade shows and their exposure to special private list of companys they know. I called them, they had no results not even a call. I stopped payments thinking I was saving but they finaced the contract, they got all their money and I was stuck with a financed bill. I was sent to collections for failure to save my own money. All I have is a book and no results, not even a call or letter from anyone. I truely believe that I was taken and promised much and never expected that a company that is advertised almost every where is allowed to scam people who need and depend on trust in times of need. Please help!!!
