Name of mass media invention promoter advertised: ISC

DOCUMENT REDACTED
 USPTO FOIA 04-196

Invention promotion services offered to be performed: patent invention, market my product, send product and patent to various manufacturers

Explanation of complaint between customer and invention promoter:
I paid ISC approx \$10,000 to patent and market my invention. They did not include all of my drawings in their design and brochure. I had to work directly with a patent attorney and, although I got a patent, I never had my product marketed to distant manufacturers. ISC said they sent a brochure of my invention to many manufacturers, but when I called some of the manufacturers, they said they never received anything from ISC.

ISC continually gave me the run-around and took all my money in exchange for nothing. I am very unhappy and I want my money back.

Please begin an investigation about the crooks at ISC so they don't do this to anyone else.
