#### WHAT IS YOUR COMPLAINT?

Please be as specific as possible within the space provided

Name of mass media invention promoter advertised in: (i.e., TV, Radio, Newspaper, Magazine, Internet)  
Internet advertisement

Invention promotion services offered to be performed:

Research design and patent search, Disclosure document filing, creating presentation materials, creating a production sample, producing a pitch and executive summary

Explanation of complaint between customer and invention promoter:

I contacted Davison and Associates in good faith to assist me in the patenting and licensing of a medical invention. I have paid Davison and associates over \$15000 to date without any results. I feel that Davison and Associates misrepresented their services in exchange for my money. They have directed their marketing toward companies that are not within my target market. They would not take my advice when I would direct them toward prospective companies until they marketed the product to their companies. Upon re-reviews of the documents given to me by Davison and Associates, the agreement with the companies regarding a product review had been back dated up to two years prior to my contact with Davison, indicating to me that such requests had never been made, and pres alleged presentations had never been given.
